

INTRODUCING THE

WOMEN IN SECURITY (WIS) WORKSHOP

*The new Women-in-Security (WIS) Workshop (jointly sponsored by CMC's Keck Center and Pomona College) has selected four outstanding 2021-2022 Fellows. Working with **Professors Taw, Le, and Boduszynski**, as well as security professionals and outside academics, the Fellows will spend the year learning about post-graduate academic and career opportunities, how to craft policy memos and op-eds, and strategies for navigating spaces in security policy and analysis in which women have been traditionally under-represented. Each Fellow will write an op-ed and conduct independent research on a security issue of their choice.*

*The WIS Working Group's guest speaker events will be open to the broader 5C community. Please join us in congratulating the first cohort of WIS Fellows: **Carley Barnhart, Yutong Niu, Erin Puckett, and Olivia Wee!***
